## ACADEMIC PUBLICATIONS

[\*Procedural Sovereign Distinction\*](#), 57 VAND. J. TRANSNAT'L L. (forthcoming 2024).

Civil procedure sets different rules for foreign sovereign and foreign private defendants in U.S. courts. Ostensibly, the reason for distinguishing between these defendants is grounded in the nature of sovereignty. However, many procedural rules have lost track of the concept of sovereignty, creating a mismatch between the justification for the distinction and the way it's applied. In this Article, I argue we should at least acknowledge this mismatch exists, and we should consider revising our procedural rules to promote the value of coherence and justification in law.

[\*Culpability in Atrocity and the Role of Complicit Observer\*](#), 37 TEMP. INT'L & COMP. L.J. (forthcoming 2023).

Atrocity crimes are often associated with an aesthetic of horrific spectacle, the criminal nature of which is considered intuitively recognizable. This invited contribution to a symposium on Randle DeFalco's *Invisible Atrocities* (CUP 2022) argues culpability as imagined by the observer is an important and overlooked dimension of the so-called "atrocity aesthetic." It is the sense of our complicity being

intolerable that distinguishes the atrocity aesthetic—and atrocities from “mere” tragedies—rather than the spectacular.

## SELECTED WORKS IN PROGRESS

### *Abandoning Sovereignty in Personal Jurisdiction*

The question scholars and courts have been asking for decades—whether personal jurisdiction is limited by states’ sovereignty or by individuals’ liberty—has often misunderstood what form of sovereignty is at stake. The fact that defendants are able to consent to jurisdiction indicates that the relevant form of sovereignty must internal, relating to the relationship between sovereigns and individuals, rather than external, relating to the relationship between sovereigns. This suggests claims of jurisdiction being limited by horizontal federalism are misplaced, and that the relevant concept of sovereignty in the domain of personal jurisdiction is effectively coterminous with individual liberty.

### *Impossible Commands: Hobbes and Spinoza on Law, Rights, and Resistance*

In this draft, I examine Thomas Hobbes and Baruch Spinoza’s approaches to laws that would require an individual to perform an act contrary to their human nature. Doing so begins to reveal the range of possibilities available and the vast ramifications that even small shifts in our political theory of obedience and resistance can have.
