Summary. The course introduces economics as a tool to analyze the laws that underpin a market economy with an emphasis on property, contract and tort law. **Learning objective.** To teach students how to use microeconomics to reason about law. **Prerequisites.** No previous knowledge of law or economics is required. We **do not** use calculus in this class.

Bibliography. The course is based on Robert Cooter and Thomas Ulen, *Law & Economics*, 6th ed., 2016 (“Cooter & Ulen”). The book is available for free download from campus. One class is based on a chapter from A. Mitchell Polinsky, *An Introduction to Law and Economics*, 3rd. ed., 1989 (“Polinsky ILE”). A PDF of this chapter will be made available online.

Homework. Consists in solving and timely turning in the assigned review quizzes. The review quizzes are available at bcourses. The deadline for submitting the quizzes is 11:00 am of the due date. 10% of the final grade is based on turning in the review quizzes. The quizzes will not be individually graded. If you turn in all of the quizzes, you get a full grade.

Grading. Grades will be based on three closed-book exams (25% of the grade each), review quizzes (15% of the grade) and section participation (10% of the grade).

How to do well in the exams. Exam questions are similar to those in the review quizzes. You should think of the review quizzes as practice midterms. The key to doing well in the exams is to master the review quizzes.

Lectures. Each lecture has a PPT that summarizes the main concepts discussed during the lecture. The PPTs are available at bcourses. In class, we’ll also discuss part of the review quizzes. The lecture PPTs and the solved review quizzes will be posted online.

Discussion sections. The main goal is to discuss the review quizzes.

- Do the readings before each class (they are short!)
- Go to class (or listen to course capture)
- Do the review quizzes (homework)
- Attend discussion sections and clarify your questions about the quiz with the GSI
- Study the solved review quiz which is posted at bcourses
- Attend (or watch) the review sessions before the exam.
Ask questions and voice your concerns sooner rather than later.
